

Dear Emily,

How are you there? I hope you are fine there. I got your letter after two month. I read your letter after two month. I read you letter. I am very greatful to tell something about me, which you have asked in previous letter. Hi I am Riva Malla.. I am studying in grade seven. In our family there are four members. My parents love me very much. My parents tell me that "make often happy then your life will become full of happiness". I am twelve years old. My favourite animal is dog. Because dog are useful pet rather than other animal. I just love it. At the age of four I had been to school for my study. I like to live in Nepal. Because it is full of tradition, culture and religious. It is a world natural beautiful country because in other country the things are artificial but Nepal is a full of natural resources which make us fresh and happy. I also want to ask you some questions. What makes you happy? Which is your best animal? Which is your best subject? What is your aim?

I hope you will respond me in next letter.

From your sweetest friend. Riva Malla
